6 **MEDICAL MARIJUANA**

7 **THE BOARD OF SUPERVISORS OF THE COUNTY OF LAKE ORDAINS AS FOLLOWS:**

8
9 **Section 1:** Pursuant to the Authority granted by Article XI, section 7 of the California Constitution,
10 Health and Safety Code section 11362.83, and Government Code sections 25845 and
11 53069.4, the Board of Supervisors does enact this Article of the Lake County Zoning
12 Ordinance, which shall be known and may be cited as the “Lake County Marijuana
13 Cultivation Ordinance.”

14 **“ARTICLE 72**

15 **SEC. 21-72 REGULATIONS FOR THE CULTIVATION OF MEDICAL MARIJUANA**

16
17 **72.1 Findings and Purpose:**

- 18 (a) In 1996, the voters of the State of California approved Proposition 215 (codified as California
19 Health and Safety Code section 11362.5, and entitled “The Compassionate Use Act of 1996”).
- 20
21 (b) The intent of Proposition 215 was to enable persons who are in need of marijuana for medical
22 purposes to use it without fear of criminal prosecution under limited, specified circumstances.
23 The Proposition further provides that “nothing in this section shall be construed to supersede
24 legislation prohibiting persons from engaging in conduct that endangers others, or to condone the
25 diversion of marijuana for non-medical purposes.” The ballot arguments supporting Proposition
26 215 expressly acknowledged that “Proposition 215 does not allow unlimited quantities of
27 marijuana to be grown anywhere.”

1 (c) In 2004, the Legislature enacted Senate Bill 420 (codified as California Health and Safety Code
2 sections 11362.7 et seq.) to clarify the scope of Proposition 215, and to provide qualifying
3 patients and primary caregivers who collectively or cooperatively cultivate marijuana for
4 medical purposes with a limited defense to certain specified State criminal statutes.

5
6 (d) Health and Safety Code section 11362.83 expressly allows cities and counties to adopt and
7 enforce ordinances that are consistent with Senate Bill 420. The California Supreme Court
8 reaffirmed the authority of local jurisdictions to regulate land uses in City of Riverside vs. Inland
9 Empire Patients Health and Wellness Center, Inc.(*56 Cal. 4th 729, 156 Cal. Rptr. 3d 409, 300 P.*
10 *3d 494 (3013)*)

11
12 (e) The Federal Controlled Substances Act, 21 U.S.C. §§ 801 et seq., classifies marijuana as a
13 Schedule I Drug, which is defined as a drug or other substance that has a high potential for
14 abuse, that has no currently accepted medical use in treatment in the United States, and that has
15 not been accepted as safe for use under medical supervision. The Federal Controlled Substances
16 Act makes it unlawful, under federal law, for any person to cultivate, manufacture, distribute or
17 dispense, or possess with intent to manufacture, distribute or dispense, marijuana. The Federal
18 Controlled Substances Act contains no exemption for the cultivation, manufacture, distribution,
19 dispensation, or possession of marijuana for medical purposes.

20
21 (f) The County's geographic and climatic conditions, along with the sparse population in many
22 areas of the County provide conditions that are favorable to outdoor marijuana cultivation, and
23 the County has experienced a significant increase in the number of people moving to the area
24 seasonally to cultivate large amounts of marijuana, often from other States. Marijuana growers
25 can achieve a high per-plant yield because of the County's favorable growing conditions. With
26 the use of custom soils and fertilizers, it is not uncommon for plants to grow to 12 feet in height,
27 six feet in diameter and produce between two (2) and four (4) pounds of dried bud. These
28 seasonal growers are unfamiliar with local and state regulations aimed at protecting the

1 environment and are causing significant damage to area watersheds. Soils, fertilizers and
2 rodenticides are commonly left behind as sites are abandoned for the winter.

3
4 (g) Proposition 215 and Senate Bill 420 primarily address the criminal law, providing qualifying
5 patients and primary caregivers with limited immunity from state criminal prosecution under
6 certain identified statutes. Neither Proposition 215 nor Senate Bill 420, nor the Attorney
7 General's August 2008 Guidelines for the Security and Non-Diversion of Marijuana Grown for
8 Medical Use adopted pursuant to Senate Bill 420, provides comprehensive civil regulation of
9 premises used for marijuana cultivation. The unregulated cultivation of marijuana in the
10 unincorporated area of Lake County can adversely affect the health, safety, and well-being of the
11 County, its residents and environment. Comprehensive civil regulation of premises used for
12 marijuana cultivation is proper and necessary to avoid the risks of violent criminal activity,
13 degradation of the natural environment, malodorous smells, and indoor electrical fire hazards
14 that may result from unregulated marijuana cultivation, and that are especially significant if the
15 amount of marijuana cultivated on a single premises is not regulated and substantial amounts of
16 marijuana are thereby allowed to be concentrated in one place.

17
18 (h) Cultivation of marijuana at locations or premises in close proximity of schools, churches, parks,
19 child care centers, or youth oriented facilities creates unique risks that the marijuana plants may
20 be observed by juveniles, and therefore be especially vulnerable to theft or recreational
21 consumption by juveniles. Further, the potential for criminal activities associated with marijuana
22 cultivation in such locations poses heightened risks that juveniles will be involved or
23 endangered; therefore, cultivation of any amount of marijuana in such locations or premises is
24 especially hazardous to public safety and welfare, and to the protection of children.

25
26 (i) According to local law enforcement officials, the amount of Marijuana cultivated in Lake County
27 has been increasing significantly with each growing season and is increasingly occurring in
28 residential areas, in close proximity to residences, and on vacant, unsupervised and unsecured

1 properties. During the last two years, Lake County has experienced a dramatic increase in citizen
2 complaints regarding the odor, threats to public safety and other nuisances that unregulated
3 Cultivation sites can create.

4
5 (j) Since state law does not consider medical marijuana an agricultural crop, there are no regulations
6 governing the type or amounts of pesticides or fungicide used on marijuana plants. This poses a
7 threat not only to the users of the marijuana, but to consumers of agricultural crops grown in
8 proximity to the marijuana.

9
10 (k) The unregulated use of pesticides, fungicides, and fertilizers has the potential to contaminate or
11 otherwise damage adjacent property and waterways. Unauthorized use of public and private
12 water supplies and a lack of adequate sanitation facilities further adversely impacts adjacent
13 property and bodies of water.

14
15 (l) The cultivation of marijuana has the potential for increased crime, intimidation and threats. As
16 marijuana plants mature, certain varieties produce a strong odor which creates an attractive
17 nuisance by alerting people to the location of valuable marijuana plants; this creates an increased
18 risk of crimes including burglary, trespassing, robbery and armed robbery. Law enforcement
19 officials have reported an increase in calls from reported respiratory problems and allergic
20 reactions to marijuana plants.

21
22 (m) The amount of marijuana being cultivated in Lake County far exceeds the amount reasonably
23 necessary to serve as medical marijuana for residents of the land where the cultivation occurs, or
24 patients under the care of primary caregivers, and criminal operations are increasing. Lake
25 County has experienced a significant increase in reported home invasion robberies, and it is
26 believed that more incidents go unreported due to the criminal nature of many cultivation
27 operations.

1 (n) Marijuana that is cultivated indoors often results in excessive use of electricity which may
2 overload standard electrical systems creating an unreasonable risk of fire. In addition, many
3 homes have suffered extensive damage due to unpermitted electrical, plumbing and mechanical
4 modifications. These unsafe conditions are often caused by tenants.

5
6 (o) As recognized by the Attorney General's August 2008 Guidelines for the Security and Non-
7 Diversion of Marijuana Grown for Medical Use, the cultivation or other concentration of
8 marijuana in any location or premises without adequate security increases the risk that
9 surrounding homes or businesses may be negatively impacted by nuisance activity such as
10 loitering or crime.

11
12 (p) Standards are necessary to protect adjacent property owners and residents who find the odor of
13 mature marijuana plants offensive; standards are needed to limit incompatible uses on smaller
14 lots and protect the public safety and welfare.

15
16 (q) It is the purpose and intent of this Article to implement State law by providing a means for
17 regulating the cultivation of medical marijuana in a manner that is consistent with State law and
18 which balances the needs of medical patients and their caregivers and promotes the health,
19 safety, and welfare of the residents and businesses within the unincorporated territory of the
20 County of Lake. This Article is intended to be consistent with Proposition 215 and Senate Bill
21 420, and towards that end, is not intended to prohibit persons from individually, collectively, or
22 cooperatively exercising any right otherwise granted by State law. Rather, the intent and purpose
23 of this Article is to establish reasonable regulations upon the manner in which marijuana may be
24 cultivated, including restrictions on the amount of marijuana that may be individually,
25 collectively, or cooperatively cultivated in any location or premises, in order to protect the public
26 health, safety, welfare and environment in Lake County, and that is in conformance with the
27 provisions of California Health and Safety Code Section 11362.5 through 11362.83.

1 (r) The limited right of qualified patients and their primary caregivers under State law to cultivate
2 marijuana plants for medical purposes does not confer the right to create or maintain a public
3 nuisance. By adopting the regulations contained in this Article, the County will achieve a
4 significant reduction in the aforementioned harms caused or threatened by the unregulated
5 cultivation of marijuana in the unincorporated area of Lake County.

6
7 (s) Nothing in this Article shall be construed to allow the use of marijuana for non-medical
8 purposes, or allow any activity relating to the cultivation, distribution, or consumption of
9 marijuana that is otherwise illegal under State or federal law. No provision of this Article shall
10 be deemed a defense or immunity to any action brought against any person by the Lake County
11 District Attorney, the Attorney General of State of California, or the United States of America.

12
13 **72.2 Intent:** It is the intent of the Board of Supervisors to prohibit the large scale cultivation of
14 marijuana used for non-medical purposes, while regulating the cultivation of limited amounts of
15 marijuana for medical purposes to accommodate the needs of qualified patients and/or their
16 caregivers, in order to protect Lake County's unique and sensitive environment, and to preserve
17 the public peace, health, safety and general welfare of the citizens of, and visitors to the County.
18 It is also the intent of the Board of Supervisors that nothing in this Article shall be construed to
19 allow persons to engage in conduct that endangers others or causes a public nuisance or to allow
20 the use or diversion of marijuana for non-medical purposes.

21
22 **72.3 Applicability:** The provisions of this Article shall be applicable to all persons and businesses
23 described herein whether the activities described herein were established before or after the
24 effective date of this Article.

16 public view at all stages of growth. Should the marijuana plant(s) grow higher than the
17 fence, the plants shall be cut so as not to extend higher than the fence. The Fence must
18 be adequately secure to prevent unauthorized entry and include a locking gate that shall
19 remain locked at all times when a Qualified Patient or Primary Caregiver is not present
20 within the Cultivation area. All fences shall comply with the location and height

5 used for an indoor cultivation, in a manner that allows law enforcement officials
6 access the records at time of compliance inspection.

7
8 3. The cultivation shall be completely screened from public view and the views of
9 adjacent parcels with a fence with locked gates, and no medical marijuana shall be
10 cultivated or otherwise placed within 100 feet of any property line or within 200
11 feet of any off-site residence, as measured from the plant canopies. The fence
12 must include a locking gate which shall be kept locked at all times when the
13 qualified patient or caregiver is not in the immediate area. Fences and gates shall
14 comply with the height limits specified by Section 42.11 of the Zoning Ordinance,
15 and the definition of “fence” provided in this Article.

16
17 4. Nothing herein shall limit the ability of Enforcement Officials from entering the
18 property to conduct compliance inspections necessary to ensure compliance with this

4 accessory structure that does not meet the definition of Indoor shall be considered
5 Outdoor Cultivation.

6
7 (d) Indoor cultivation area(s) shall have ventilation and filtration systems installed that
8 prevent medical marijuana plant odors from exiting the interior of the structure while
9 addressing the potential for mold. The ventilation and filtration system, along with any
10 plumbing improvements, shall be installed with valid electrical and plumbing permits
11 issued and inspected by the Lake County Building and Safety Division prior to
12 commencing cultivation within the allowable structure.

13

25 occur on more than one day constitute separate violations on each day. Violations
26 continuing, existing, or occurring on the service date, the effective date, and each
27 day between the service date and the effective date are separate violations.

1 2. In determining the amount of the administrative penalty, the Enforcement

5 the degree of culpability, economic savings, if any resulting from the violation,
6 and any other matters justice may require.

7

9 of a Notice of Violation and Proposed Administrative Penalty, which shall state
10 the amount of the proposed administrative penalty and the reasons therefore. The
11 Notice of Violation and Proposed Administrative Penalty may be combined with
12 a Notice to Abate Unlawful Marijuana Cultivation issued pursuant to Section
13 72.9(b) of this Article. The Notice of Violation and Proposed Administrative
14 Penalty shall be served by certified mail addressed to all of the following:

12 penalty imposed pursuant to this Section has not been satisfied in full within 90
13 days and has not been timely appealed to the Superior Court in accordance with
14 Government Code section 53069.4, subdivision (b), or if appealed, such appeal
15 has been dismissed or denied, this obligation may be enforced as a lien against the
16 real property on which the violation occurred.

17 i. The lien provided herein shall have no force and effect until recorded with
18 the County Recorder. Once recorded, the administrative order shall have the force
19 and effect and priority of a judgment lien governed by the provisions of Code of
20 Civil Procedure section 697.340, and may be extended as provided in Code of
21 Civil Procedure sections 683.110 to 683.220, inclusive.

23 unsatisfied pursuant to the law applicable to civil money judgments.

24 iii. Prior to recording any such lien, the enforcing officer shall prepare and
25 file with the Clerk of the Board of Supervisors a report stating the amounts due
26 and owing.

5 property with a hearing notice not less than ten (10) days before the hearing date.
6 The notice must set forth the amount of the delinquent administrative penalty that
7 is due. Notice must be delivered by first class mail, postage prepaid, addressed to
8 the owner at the address shown on the last equalized assessment roll or as
9 otherwise known. Service by mail is effective on the date of mailing and failure of
10 owner to actually receive notice does not affect its validity.

11 vi. Any person whose real property is subject to a lien pursuant to this Section
12 may file a written protest with the Clerk of the Board of Supervisors and/or may
13 protest orally at the Board of Supervisors meeting. Each written protest or
14 objection must contain a description of the property in which the protesting party
15 is interested and the grounds of such protest or objection.

22 penalties, and costs, the Clerk of the Board of Supervisors will either record a

24 recordation at the Lake County Recorder's Office. This notice of satisfaction will
25 cancel the County's lien under this section.

26 x. The lien may be foreclosed and the real property sold, by the filing of a
27 complaint for foreclosure in a court of competent jurisdiction, and the issuance of
28

1 a judgment to foreclose. There shall be no right to trial by jury. The County shall
2 be entitled to its attorney's fees and costs.

3
4 8. Administrative penalties imposed pursuant to this Section shall also constitute a
5 personal obligation of each person who causes, permits, maintains, conducts or
6 otherwise suffers or allows the nuisance to exist. In the event that administrative
7 penalties are imposed pursuant to this section on two or more persons for the
8 same violation, all such persons shall be jointly and severally liable for the full
9 amount of the penalties imposed. In addition to any other remedy, the county may
10 prosecute a civil action through the office of the county counsel to collect any
11 administrative penalty imposed pursuant to this section.

12
13 9. Payment of administrative penalties under this Section does not excuse or
14 discharge any continuation or repeated occurrence of the violation that is the
15 subject of the Notice of Violation and Proposed Administrative Penalty. The
16 payment of administrative penalties does not bar the County from taking any
17 other enforcement action regarding a violation that is not corrected.

18
19 10. In addition to any other remedy prescribed in this Article, any nuisance as
20 described in this Article may be subject to an administrative penalty of up to one
21 thousand dollars (\$1,000) per day. The administrative penalty may be imposed by
22 the administrative process set forth in this section, as provided in Government
23 Code section 53069.4, or may be imposed by the court if the violation requires
24 court enforcement without an administrative process.
